

AAKASH EZHAVA

Data Analyst Power BI, SQL & Advanced Excel Business Intelligence & Data Engineering

Ahmedabad, India +91 7435878229 ezhavaakash@gmail.com

[linkedin.com/in/aakash-ezhava](https://www.linkedin.com/in/aakash-ezhava) ez-aakash-portfolio.vercel.app (Portfolio)

Open to relocation: Netherlands, Germany, Ireland, Singapore

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience building end-to-end BI platforms from live REST API integrations and self-hosted ETL workflows (n8n) to star-schema PostgreSQL databases and Power BI dashboards with 20+ DAX measures. Skilled in Advanced Excel automation, SQL reporting, and Exploratory Data Analysis (EDA), with a consistent record of turning raw, multi-source data into executive-ready dashboards and KPI reporting across recruitment, e-commerce, and operations domains. Certified in Power BI, SQL, and Python for Data Analysis. Actively seeking Data Analyst, Business Intelligence Analyst, or Data Engineering Analyst roles in the Netherlands, Germany, Ireland, and Singapore, with flexibility to relocate.

CORE SKILLS

- Advanced Excel: XLOOKUP, INDEX-MATCH, Power Query, Pivot Tables, Array Formulas, Conditional Formatting, Data Validation, Dashboard & Template Automation
- Business Intelligence & Visualization: Power BI (DAX, Power Query, Power BI Service), Tableau, Excel Charts, KPI Dashboards, Star Schema Data Modelling
- Data Engineering & Automation: n8n Workflow Automation, ETL Pipeline Design, Live REST API Integration, PostgreSQL, Data Pipeline Debugging & QA
- Database & Query Languages: SQL (Joins, CTEs, Subqueries, Aggregations), PostgreSQL, Relational Database Management, Python for Data Analysis
- Data Management: Data Cleaning, Data Validation, Data Integrity & Quality Assurance, Reporting Automation, Process Optimization
- Domain Expertise: Recruitment Analytics, E-Commerce Operations, Supply Chain & Logistics Analytics, Marketplace Compliance, Payroll & Workforce Reporting, KPI Tracking
- Soft Skills: Stakeholder Management, Cross-Functional Collaboration, Executive Reporting, Problem Solving, Attention to Detail
- Languages: English (Fluent), Hindi (Fluent), Gujarati (Fluent), Malayalam (Fluent), Japanese (Conversational), Russian (Conversational)

PROFESSIONAL EXPERIENCE

Data Analyst Adhaan Hiring Edge Solution Pvt. Ltd

Feb 2026 - Present

Ahmedabad, India

- Deliver daily performance reports to teams across India, tracking key company metrics and ensuring stakeholders receive timely, accurate data for decision-making.
- Consolidate and reconcile data from multiple functions Payroll, Compliance, LEP, and Permanent Staff maintaining consistency and accuracy across all data sources.
- Design and maintain interactive Power BI and Excel dashboards to track KPIs and business performance, upgrading existing dashboards to expand operational visibility.
- Partner with cross-functional stakeholders to gather data requirements and translate them into actionable, business-ready insights.
- Uphold data quality and integrity through routine validation, auditing, and cleansing across multiple data systems.

Ecommerce Executive Mishkon International Pvt. Ltd

Sep 2024 - Jan 2026

Ahmedabad, India

- Managed multiple client accounts across the US Amazon marketplace, ensuring full compliance with Amazon policies across 1,000+ active SKUs.
- Maintained several databases across the US market, ensuring product listings, ASIN status, and shipment data stayed accurate and current.
- Built and sent weekly diagnostic reports to clients confirming shipment status and flagging discrepancies early.

- Published and maintained product listings in strict adherence to Amazon marketplace policy to protect account health and consumer safety.
- Collaborated with cross-functional teams to identify data discrepancies and implement corrective actions that improved listing accuracy.

Documentation Officer (Internship) Kalorex Group

Mar 2024 - Sep 2024

Ahmedabad, India

- Managed all infrastructure-related documentation, ensuring accuracy, organization, and compliance with company protocols.
- Prepared work orders and payment advices using structured Excel templates to support internal approval workflows.
- Maintained physical and digital records with strict attention to detail and adherence to safety and protocol standards.
- Collaborated with the team to standardize documentation processes, improving retrieval efficiency and compliance tracking.

SELECTED PROJECTS

Full project write-ups with screenshots, GitHub links, business problem, solution, and impact are available on my portfolio:

ez-aakash-portfolio.vercel.app

Global Supply Chain Intelligence Platform Power BI, DAX, ETL, REST APIs

Built a live logistics intelligence platform tracking trade, freight, ports, weather, and supply-chain risk across 30 countries, sourced entirely through real-time REST APIs rather than static datasets. Delivered six analytical views Trade Intelligence, Freight Intelligence, Port Intelligence, Commodity Intelligence, Weather Intelligence, and Risk Intelligence with a Logistics Health Score, Trade Growth %, active risk-event tracking, and a geographic health map with a live data-health panel. Diagnosed and documented a Power BI Service scheduled-refresh constraint (dynamic API-built calls not supported by scheduled cloud refresh) and scoped a query-redesign fix.

GeoHazard Intelligence NASA EONET API, n8n, PostgreSQL, Power BI, DAX

Built an end-to-end business intelligence platform that automatically tracks global natural disasters in real time. Engineered a self-hosted n8n pipeline pulling live wildfire, flood, storm, and sea-ice event data from NASA's EONET API, enriching each event with reverse-geocoded location data, and loading it into a properly modeled star schema in PostgreSQL. Built the Power BI layer with DAX measures delivering live KPIs, an interactive world map of active disasters, daily trend analysis, and a searchable event explorer, running fully automated with zero manual intervention.

Global Hiring Intelligence Dashboard Power BI, Power Query, DAX, REST APIs

Built a live, fully API-connected Power BI dashboard combining 6,800+ real-time job postings from 6 APIs (Adzuna, Arbeitnow, RemoteOK, Remotive, Jobicy, Himalayas) with World Bank economic data (GDP, inflation, unemployment) across 30+ countries. Designed a star-schema data model with 20+ DAX measures and a custom Opportunity Index, on a full Power Query ETL pipeline with zero static files.

FBI Most Wanted Live Intelligence Dashboard Power BI, Power Query, REST API

Connected Power BI directly to the FBI's public REST API to build a fully automated, 4-page dashboard tracking 1,160+ active wanted cases, including case status, crime type, demographics, and total reward pool (\$100M+), with daily auto-refresh.

Meta Ads Performance Dashboard Power BI

Built an interactive Power BI dashboard tracking Facebook and Instagram ad performance, including impressions, clicks, CTR, conversion rate, budget insights, and geo/demographic breakdowns.

CERTIFICATIONS

- Power BI Workshop (Beginner to Pro) Office Master
- Deloitte Australia Data Analytics Job Simulation Forage
- Analyzing and Visualizing Data with Microsoft Power BI Pragmatic Institute
- Cisco Data Analytics Essentials Cisco Networking Academy
- SQL for Data Analysis Simplilearn
- Python for Data Analysis Simplilearn

EDUCATION

Bachelor of Commerce (BCom), Statistics Gujarat University, Ahmedabad (Aug 2023 - Jul 2026)
